Road Traffic Division

Department of Haulage and Transport of Dangerous Substance

Tel-Aviv

Date: 03/11/2011

CERTIFICATE OF APPROVAL

No 11H2-1408

For the design type of a packaging for the transport of dangerous goods

1. Legal bases

Israeli regulations concerning the transport services (1997).

Israeli regulations concerning the transport services (2001).

Israeli regulations concerning the transport of dangerous goods by sea and air.

2. Approval holder

DOLAV-LAHAV PLASTIC PRODUCTS. KIBBUTZ DVIR D.N HANEGGEV 85330 ISRAEL

3. Manufacturer(s)

DOLAV-LAHAV PLASTIC PRODUCTS. KIBBUTZ DVIR D.N HANEGGEV 85330 ISRAEL

Identification: DLV

4. Specification of the design type

Design type: PLASTIC CONTAINER

Type designation of the manufacturer: 800 SOLID RIB 30
1000200000

Dimensions: (mm) 1200 X 800 X 740

Gross Weight: 700 KG

5. Performance proof

The design type is specified by the descriptions, technical drawings, material specifications and certificates as given in the test report(s), referred to test report no: 75-99-6977 dated: October 2011.

Testing institute: Environmental testing laboratory, testing plant, I.M.I

6 Design type approval

The design type as specified under paragraphs 4 and 5 complies with the regulations under paragraph 1. Herewith, the design type is declared as approved with the subsidiary regulations as given under paragraph 9 for the transport of dangerous goods.

The suitability of this design type for the transport of dangerous articles is valid.

The packaging is designed and constructed to prevent movement of the goods and inadvertent operation during normal conditions of transport.

Used for dangerous goods of packaging Group II or III with the maximum gross weight as specified under paragraph 4.

Equivalent or better properties of the filling substances with regard to the effect of damage of the package performing the drop test in comparison with the used substance(s) during the performed design type tests.

Department of Haulage and Transport of Dangerous Substance

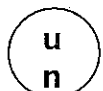

7. Manufacturing of packagings

The packagings may be manufactured in lots according the approved design type. The manufacturer has to guarantee that packagings manufactured in lots comply with the approved design type.

Existing packagings as specified under paragraph 6 are also a constitute part of this approval

8. Marking

Packaging manufactured to be approved design type shall be marked as follows:

 **11H2 / Y / S / ** / IL / DLV 1408/ 2400 / 700**

** - Year of packing manufacturing (last two digits).

9. Subsidiary Regulations

9.1 This approval is liable to withdrawal at any time for violation of the obligations.

9.2 The approval holder (paragraph 2) must make proof that all regulations and notices of this approval governing the use of packaging for the transport of dangerous goods have to be made known to every user.

10. Notices

10.1 The use of packagings of the approved design type with respect to pacaging type, inner pacaging(s), capacity or mass is regulated by the respective model regulations. Any other requirements (e.g. filling degree, compatibility with packaging materials) for the transport of dangerous goods by the approvaed pacaging design type are to be taken in account.

10.2 The design type complies with the test provisions of the following international regulations for packagings for the transport of dangerous goods which in every case are valid at the date of issue of this certificate of approval:

10.2.1 The recommendations on the transport of dangerous goods of UNITED NATIONS.

10.2.2 International Maritime Dangerous Goods Code –IMDG CODE.

10.2.3 The technical instructions for the safe transport of dangerous goods by air (ICAO-TI) similarly written down in the IATA-Dangerous Goods Regulations.

10.2.4 The European Agreement Concerning the International Carriage of Dangerous Goods by Road (ADR).

10.2.5 The Regulations on the International Transport of Dangerous Goods by Rail (RID)
